

To Schedule Your Field Trip

We recommend scheduling a program at least one month in advance. If we are going to custom design a program, more time may be needed. Inquire about Fall and Winter Programs in August and September; inquire about Spring programs November through February.

Contact the Education Coordinator at Broadmoor by calling (508) 655-2296, extension 7304, or by emailing broadmoorschool@massaudubon.org.

Please provide the following information:

- Grade level
- Program you are interested in arranging
- Objectives you want to achieve
- Number of classes, students/class
- Preferred dates and times
- Your name, School name and location
- Contact information / best times to reach you

Professional Development

We offer teacher professional development and are willing to come to your school for specific program content. Please inquire.

Classroom Programs

We can provide classroom lessons for any grade or offer a comprehensive school program, working with all grades throughout the year. Ask for more information and fees.

Broadmoor Wildlife Sanctuary School Programs

science learning in nature

Our school programs guide inquiry into nature through “hands-on /

“minds-on” experiences with the natural world. They are designed to develop students’ curiosity about nature into appreciation for their local environment.

We design our programs to meet the Massachusetts Curriculum Science and Technology Frameworks.

With advance notice, we may be able to customize our programs to meet your specific curriculum content needs.

Field Trips at Broadmoor*

2012

Seasons F= Fall; W= Winter; S= Spring

Program	Grades	Length	Season	Concepts	Fee / student
Sense of Nature	Pre-K—2	1.5 hrs	F—W—S	Patterns in Nature, life cycles, living/non-living, senses	\$6.00
Habitat Explorations	K—3	2 hrs	F—W—S	Habitats, food chains, life cycles	\$7.00
Marsh Life	K—3	2 hrs	F—S	Habitat, water cycle, food chain, life cycles	\$7.00
Life in a Vernal Pool	K—2; 3—5	2 hrs	F—S	Habitat, water cycle, life cycle, food chain; adaptations	\$7.00
Winter Survival	2—5	2 hrs	F—W	Adaptations to seasons, migration, hibernation, habitat	\$7.00
Broadmoor Cultural & Natural History	3—4	2 hrs	F—S	Early Natick residents, water use, ethnobotany, early technology, and local plant and animal habitats	\$7.00
Birds w/ Bird-banding	3—5	2 hrs	F—S	Characteristics/adaptations, habitat, migration, identification, bird-banding demonstration (*additional \$50 flat fee for this program)	\$7.00*
Rocks, Weathering & Erosion	3—5	2 hrs	F—S	Erosion, weathering, glacial impacts, rock formation	\$7.00
Marsh Ecology	3—5	2 hrs	F—S	Adaptations, habitat, classification, wetland function	\$7.00
Adaptations	3—5, 6—8	2 hrs	F—S	Adaptations, habitat, relationships in nature	\$7.00
Earth History	6—8	2 hrs	F—S	Erosion, weathering, glacial/volcanic evidence, rock formation	\$7.00
Fresh Water Ecology	6—8	2 hrs	F—S	Energy flow, adaptations, niche, classification, water conservation	\$7.00
Ecology	6—8	2 hrs	F—S	Energy flow, adaptations, diversity, relationships in Nature	\$7.00
Special Request	Any grade	2 hrs	F—W—S	You choose the standards and we create program for you	\$7.50

Programs at your School or elsewhere**Fees**

Lessons in the Classroom or Schoolyard	Pre-K—7	1 hr	F—W—S	Any science topic- we'll work with your curriculum	\$50-100/hr
River Ecology**	6—12	2-3 hrs	F—S	Canoeing, ecology, energy flow, geology, watersheds; limit 14/trip	\$125/hr

*Programs may be combined or adjusted. Groups may arrange to have lunch or snack on site in designated areas; we have a pack-it-in/pack-it-out policy. We run programs rain or shine. Longer programs may be arranged for \$1/student per each additional 1/2 hr. **Water-level dependent.
