

Calling All Backyard Bird Feeders!

Participate in Mass Audubon's tenth annual Focus on Feeders weekend—fun for novice and experienced birders alike! **During the weekend of February 2 and 3, 2008**, we ask that you note the quantity and diversity of birds visiting your feeders.

Get your camera ready! We will also be awarding prizes in several categories for wildlife photographs submitted with results. All wildlife photos are welcome and need not be limited to birds. Amateur photographers only, please. All photos become the property of Mass Audubon.

Ask others to join the fun since **the value of the bird data collected increases with the number of participants**. All participants will be entered into a prize drawing. Additional report forms are available on our website at www.massaudubon.org/focus.
