Contact Person(s): _____
Contact Information: _____

This form supports our efforts to provide a program that promotes effective participant learning. Please fill out the following information as completely as possible.

Please let us know if you have any participants who might have special needs in an outdoor classroom environment: _____

Program/Curriculum Goals:

How does your program relate to what you are doing in your classroom?

What key concepts or ideas related to your class curriculum, would you like Teacher Naturalists to focus on?

How will this visit integrate into your curriculum? (introduction or conclusion to unit, enrichment, branching out, etc.)

Are you doing pre-visit or post-visit activities/discussions with your students? Please explain.

How will you assess your students' experience? Can you provide us with a specific example?

Thank you for filling out this information. Please keep a copy for your records.
