

Celebrate your Birthday with the South Shore Sanctuaries!

If your child is turning 5 years or older, bring your friends and family and join us for a nature adventure at either the North River or Daniel Webster Wildlife Sanctuary. Your birthday party will include an hour-long natural history program led by one of our Teacher Naturalists, who will guide you through various nature-themed activities. Enjoy private use of the program room for the second hour to continue the celebration with refreshments, gifts, and time with your guests. (Use of program room is only available at the North River site).
