

## PRINTS

Inks and paints are used to make many types of prints. This is an exhibition of silkscreen prints.

**COLOR** your thumb tip with a marker. Press it in the box. With pen or pencil, add eyes, beaks, wings, and feet.

## FIND

- A silkscreen showing just one bird.
- A silkscreen showing a pair of birds.
- A silkscreen showing a flock (three or more).

**CREATE** a flock of thumb print birds.

## HABITATS

A habitat is the place where an animal lives.

Artist Anne S. Faust shows birds in their natural habitats. What types of bird habitats can you find in the art? Check off your answers once you find them.

- Forest
- Desert
- Ocean
- Other \_\_\_\_\_
- Marsh

## COLORS

Artist Anne S. Faust uses many colors, but every color she uses has to be printed in a separate layer.

## Camouflage & Contrast

- FIND** a silkscreen where the birds share the same colors as their habitat.
- FIND** a silkscreen where the birds show very different colors than their habitat.

**COLOR** in a habitat (plants or rocks) for the birds below. Then color one bird to blend in (camouflage), and the other to stand out (contrast).
