

Seasonal Winter Adult Group Programs

Our education staff is committed to an inquiry-based integrated teaching approach.

We offer on-site and outreach programs specifically designed to meet the needs and interests of your group.

Available December through February

Adult Group Programs

Mass Audubon offers a chance to learn about wildlife, habitats, and more in unique and engaging ways through bookable group programs. These programs are suitable for libraries, garden clubs, historical groups, senior centers, and other adult groups and clubs. Taking part in one of our programs allows your participants to gain an appreciation for and an awareness of the natural world and your connection to it.

Pricing

1 hour presentation plus ½ hour nature walk*: \$255

*Nature walks off-site of Mass Audubon Sanctuary need to have a set location before booking confirmation.

Optional Add Ons

Nature walk

Live animal encounter

Winter in Massachusetts

Learn about the marvelous adaptations animals in Massachusetts have to survive and thrive in our winter world. Discover who hibernates, how do chickadees and other birds find and store food, and what animals migrate to Massachusetts for the winter, and more.

Meet with a Mass Audubon Naturalists or biologist to discuss what you can do to protect animals this winter.

The Secret Life of Birds in Winter

Many birds migrate to New England for the winter months. Snowy owls, ducks, and certain songbirds are in Massachusetts during the colder months, but not during the rest of the year. Learn why these birds migrate and survive the harsh and unpredictable winter weather. After this program, you will be better able to identify our winter visitors and what you can do to protect these marvelous overwintering birds.

Meet with a Massachusetts Ornithologist.

It's Sugar Time: Maple Sugaring Winter Magic

For Mass Audubon, March is the sweetest time of the year at Mass Audubon. The warm days of late winter awaken the flow of sap in the maples resulting in Maple Sugar Days. Learn about the process, the different techniques and equipment used across New England, and why Sugar Maples are so unique.

Learn about a New England delicacy with a Mass Audubon expert.

Love is In the Air: From Partners to Parenthood

What birds mate for life? What about raccoons? How do animals attract a mate? Learn about the mating habits of wildlife in Massachusetts and how they vary between species. Discover how the seasons influence mating, reproduction, and raising offspring.

Learn about different mating behaviors and raising young from a Mass Audubon Naturalist.

We also offer online programs for groups statewide!
